

IBROKHIM AKHMATOV

Junior Frontend Developer — React / Next.js / TypeScript

Email: axmatov2004@gmail.com Telegram: [@ibrm_ai](https://t.me/@ibrm_ai)

Portfolio: ibrokhim.pages.dev GitHub: github.com/holmes-ai

Remote · GMT+3

SUMMARY

Frontend developer building fast, modern and responsive web interfaces, with a focus on AI-integrated and automation-driven products. 3+ years of independent, client-facing freelance experience combined with a live portfolio of production projects in React, Next.js and TypeScript. Known for strong ownership and delivery speed - shipped multiple products end-to-end, including a working Telegram Mini App for an auto-service business in a single day, and a live AI SaaS product (ColdMailAI, an LLM-powered cold-email generator). Trilingual (Russian and Uzbek native, English B1); fully remote-ready.

TECHNICAL SKILLS

Core Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

UI & Styling: Tailwind CSS, Bootstrap, Framer Motion, responsive design, CSS & scroll-driven animation

Tools & Deploy: Git, GitHub, Vercel, Cloudflare Pages, GitHub Pages, REST APIs

AI & Automation: AI / LLM API integration, Telegram Mini Apps & bots, workflow automation (Make.com, n8n)

Familiar with: Node.js, Python, PHP

EXPERIENCE

Frontend Developer - Freelance & Personal Projects

2023 - Present

Remote · self-directed

- Designed and shipped ArendoCar, an end-to-end auto-rental / car-service web platform (marketing site + service module) with a fully responsive, animated interface.
- Built a complete Telegram Mini App for a car-service business from scratch in 1 day (booking & service automation), then iterated to fix all reported issues.
- Developed Ferrari Showcase, a premium scroll-driven landing page using image-sequence animation, focused on motion design and rendering performance.
- Built a bilingual personal portfolio in Next.js + TypeScript with dark/light theming and Framer Motion, deployed on Cloudflare Pages.

Freelance Digital Marketer - Telegram Channel Management

2023 - 2026

Remote · independent contractor

- Managed and grew 6–7 Telegram channels with a combined audience of 65,000+ subscribers.
- Planned and ran paid ad-buying campaigns with monthly budgets of \$1,500–\$2,000, optimizing for reach and return.
- Owned the full client cycle end-to-end - outreach, negotiation, content, analytics and reporting - fully remotely.

PROJECTS

ColdMailAI - live AI SaaS generating 3 personalized cold emails in ~10s across 5 tones; full Next.js frontend + LLM (Claude) API, freemium model · coldmail-ai.netlify.app.

ArendoCar - auto-rental & service platform · React/JS · live demo on GitHub Pages.

Ferrari Showcase - premium image-sequence scroll experience · Vanilla JS.

Portfolio - Next.js + TypeScript, multilingual, animated · ibrokhim.pages.dev.

EDUCATION

Specialist Degree, Information Security / Cybersecurity (in progress)

2023 - 2028 (Year 3 of 5)

Institute of the Ministry of Internal Affairs of Russia

Foundation in cybersecurity and secure systems - applied as a security-aware approach to frontend development.

LANGUAGES

Russian - Native/Fluent · Uzbek - Native/Fluent · English - B1 (Intermediate)
